FIELD & FERN

LANDSCAPE & GARDEN CARE

Room to grow.

Space to live.

A practical guide to shaping and caring for your outdoor space.

FICTIONAL SERVICE GUIDE

Find the right starting point.

Three ways to move your outdoor space forward.

Design & planting

A clear layout and planting direction, guided by the way you use your space.

Share: dimensions, sunlight, existing plants and inspiration.

Garden maintenance

Regular attention to lawns, beds and borders, with a scope and schedule agreed together.

Discuss: frequency, access, green waste and priority areas.

Seasonal refresh

A focused review of tired beds, overgrown edges and opportunities for a fresh start.

Consider: what to keep, what to replace and the season ahead.

Think about everyday life.

How will you use it?

A place to sit, a safe path, an area for growing or simply a calmer view.

What does it need?

Observe sunlight, drainage, existing planting and access before deciding.

How much care fits?

Choose a direction that suits the time and support available for upkeep.

Illustrative garden inspiration, not client work.

Start with your space.

A useful project brief begins with a few clear details.

Location & access

Area, approximate dimensions and how the space can be reached.

Priorities & condition

A few photos, what is working and what you want to change.

Timing & expectations

Preferred schedule, maintenance needs and a working budget.
